

Nageze Osteo Plus

Designed to manage pain and inflammation every day, naturally.

Summary

- Anti-inflammatory and analgesic for relief of symptoms associated with mild osteoarthritis.*
- No known interactions and suitable for sustained daily use.**
- The active ingredient **Turmeric BetaSorb®** is a full spectrum turmeric extract complexed with **BetaSorb®** technology for improved bioavailability.

Please note: all indications based on Traditional Chinese Medicine and Ayurvedic principles. * Please consult your health care professional/practitioner.

Target Patient

People with **osteoarthritis** who require daily anti-inflammatory pain relief and:

- who cannot use pharmaceutical anti-inflammatory pain relief (NSAIDs or COX-2 inhibitors) due to hypertension, gastro intestinal issues or other interactions or polypharmacy concerns;
- who do not get adequate pain relief from their current medication*;
- are concerned with the long term side-effects of their current medication; and/or,
- who are just looking for a natural alternative for pain relief.

If you're considering making any changes to your pain management please consult your health care professional/practitioner.

Active Ingredients

All naturally derived ingredients.

Each capsule contains: Turmeric BetaSorb® (*Curcuma longa*) extract, dry cone. equiv. to dry rhizome 2.25g std. to curcuminoids 45mg.

Turmeric BetaSorb® is a full spectrum turmeric extract that includes curcumin, turmerones and other essential oils from turmeric. Together these are complexed with **BetaSorb®** technology for improved absorption and bioavailability.

BetaSorb® is a proprietary sugar-based delivery system that improves bioavailability in three ways:

1. Ensures water solubility (ingredients are absorbed more effectively if they are dissolved in water);
2. Prevents premature degradation (stops active ingredients from being damaged by stomach acids); and,
3. Improves absorption (transports active ingredients through cell membranes and into the body to work).

Dosage

All Nageze products are designed for simple compliance:

- Commence with 2 capsules daily for the first 5 days.
- Continue with 1 capsule daily or as recommended by your health professional as part of your personal pain management plan.

Can be taken on an empty stomach.

Swallow whole with water.

Capsules may be separated and powder poured into juice or other liquid – but avoid hot liquids.

Precautions and Contraindications

All Nageze products are free from wheat, gluten, salt, yeast and animal products (including dairy, shellfish and seafood derivatives) and contain no artificial colours, flavours or preservatives.

Always read the label. Use only as directed.

Always consult your health professional before changing medication or if you have any concerns
